EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Please cancel claims 1, 2, and 5-7, non-elected without traverse.

Allowable Subject Matter

Claims 3, 4, 8, and 9 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art does not teach or suggest, in combination with the other claimed limitations, plating a film-carrier tape with a tin-bismuth alloy plating solution in a plating tank with the insulation film stood up with one edge down.

Prior art, for example Houska et al. (U.S. 4,322,280) and Suganuma et al. (U.S. 2003/0224111) teach plating a flexible substrate comprising ejection washing a portion of the plated substrate after the substrate exits the plating tank through an outlet opening by ejecting water from a washing nozzle, but in neither case is the substrate stood up with one edge down.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
